EXPERIENCE THE PASSION AND EXPERTISE THAT CYRIL AND LAURA INFUSE INTO EVERY MARBERA CREATION, WHERE CRAFTSMANSHIP BRINGS ALLURE OF THE FINEST STONES INTO EACH PIECE OF MARBLE FURNITURE

Founded by Cyril and Laura and headquartered in Paris, MARBERA is a company that embodies the highest standards of craftsmanship and design, specializing in transforming the world's finest stones into exquisite marble furniture. These masterpieces are meticulously crafted in renowned Italian workshops, where traditional skills meet contemporary design. The heart of MARBERA's expertise lies in marble—particularly in the creation of marble tables and tabletops that serve as the centerpiece of any interior. However, their artistic vision extends beyond marble alone; they integrate a diverse range of gemstones into their designs, elevating each piece to a work of art.

Cyril and Laura personally oversee the creation of every unique piece, ensuring that the journey from raw material to finished product is handled with the utmost care and attention to detail. They begin by handpicking the finest marble, selecting stones that not only meet the highest standards of quality but also possess the natural beauty and character that will define the final product. This hands-on approach continues through to the final stages of execution, where their deep passion for these noble materials is evident in every curve, edge, and surface of their creations.

## THE FOUNDERS

"QUALITY,  
AUTHENTICITY,  
AND CREATIVITY  
ARE AT THE HEART  
OF OUR BRAND"

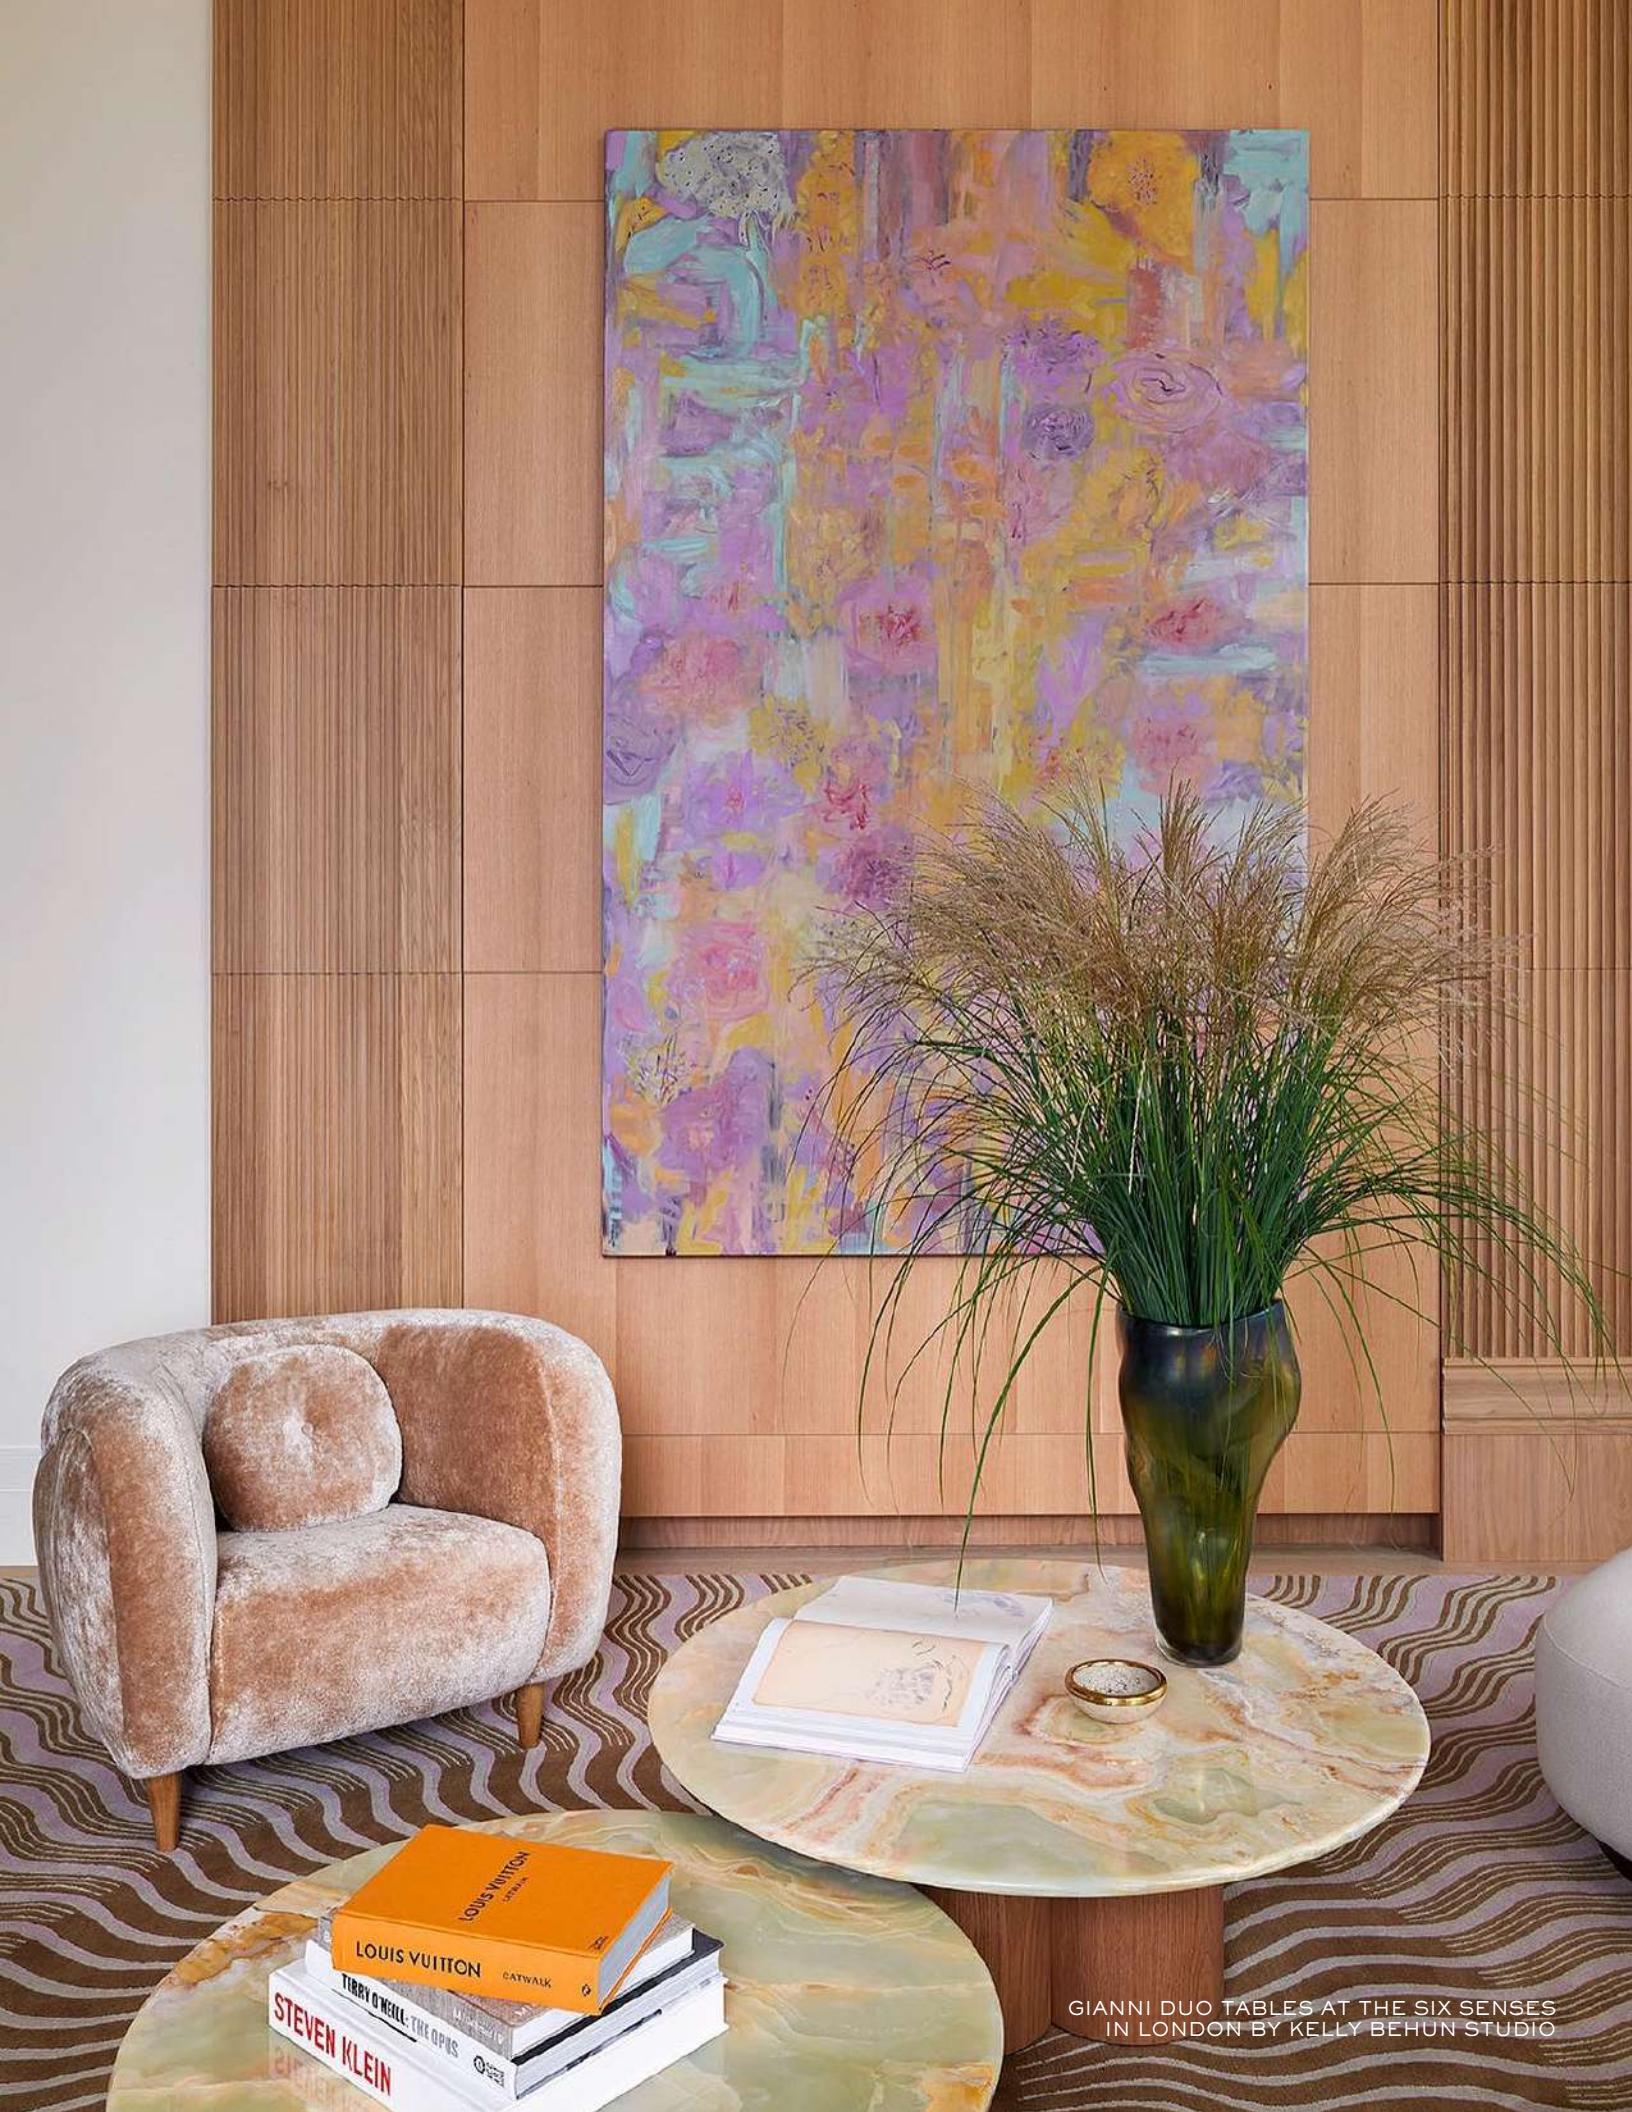

The story of MARBERA is one of passion, creativity, and a deep appreciation for the materials they work with. Cyril and Laura's love for marble and onyx is the driving force behind the company, inspiring them to transform these ancient and noble materials into furniture that is both functional and timeless. Their philosophy of design is deeply rooted in an understanding of craftsmanship and a respect for the timeless allure of natural materials. They see their work not merely as creating furniture, but as elevating these materials into pieces that enhance and define the spaces they inhabit.

At MARBERA, the mission is clear: to create pieces that transcend fleeting trends, offering a level of sophistication and refinement that appeals to the most discerning individuals. Every step of their process, from the meticulous selection of raw materials to the final design, reflects a commitment to excellence and authenticity. The core values of quality, authenticity, and creativity are the foundation of everything MARBERA does. They believe in the inherent beauty of natural materials and the importance of preserving their integrity, ensuring that each piece is as true to its origins as it is to its purpose.

The aesthetic of MARBERA is unmistakably Parisian, characterized by a contemporary elegance that effortlessly blends tradition with modernity. This distinct style is deeply rooted in the city's rich cultural history, yet it is also forward-looking, embracing the innovations and trends of contemporary design. MARBERA's designs are not just about form; they are about creating a dialogue between the past and the present, between the raw beauty of natural materials and the refined artistry of craftsmanship.

One of the hallmarks of MARBERA's design philosophy is their passion for combining different materials, creating striking contrasts and harmonious balances that bring out the best in each element. They are particularly known for their innovative use of marble, often pairing it with other luxurious materials such as wood. This combination allows them to create pieces that are both grounded in tradition and boldly modern. For instance, the warmth and texture of wood juxtaposed against the cool, smooth surface of marble create a dynamic interplay that enhances the natural beauty of both materials. Additionally, MARBERA frequently blends different types of marble within a single piece, exploring the unique qualities and colors of each stone to create designs that are rich in texture and visual interest. This approach reflects their vision of modern luxury—a concept that is not about excess, but about the thoughtful balance of textures, colors, and forms.
